Case planning for these high-end esthetic cases requires a diagnosis of evident information received from the examination of the patient.
   a. True
   b. False

Adequate restorative volume that provides space for the implant restorative components is 20-30mm.
   a. True
   b. False

According to Fig. 2, an implant overdenture is at 80 percent functional capacity.
   a. True
   b. False

Considerations and treatment precautions for hybrid dentures are poor bone quantity, parafunctional habits and systemic health complications such as bleeding disorder, metabolic diseases or a compromised immune system.
   a. True
   b. False

If a patient has a history of soreness, poor functionality and discomfort with an existing denture and the patient meets all the criteria, a hybrid denture is a great option.
   a. True
   b. False

The four major steps of case planning are Diagnostic/Data Acquisition, Virtual Planning, Surgical Guide Production and Computer Tomography.
   a. True
   b. False

Data Acquisition includes imaging technology for a precise digital plan and implant placement.
   a. True
   b. False

An impression is required for case planning and can only be taken conventionally.
   a. True
   b. False

At the point of preparing for the provisional denture, we must follow the traditional protocol, including preliminary impressions, final impressions utilizing a custom tray or the existing denture, proper occlusal records, denture set-up and try-in and the appropriate denture teeth and acrylic.
   a. True
   b. False

After the procedure, regular check-ups are recommended every 6 or 12 months to avoid complications and to assess the status of the tissue around the implants and occlusion.
   a. True
   b. False

Passing quiz grades are worth ½ point documented scientific credit. To earn CDT credit, once the quiz is completed, send it to the NADL at the address or fax number below or submit this quiz online at www.nadl.org/members/JDT/quizzes/. To earn an additional ½ point professional development credit, visit www.nbccert.org to submit your time for reading the accompanying article(s) in the professional development log. Quiz credits will appear on the NBC CDT Online Education Tracking System at www.nbccert.org, which is updated weekly. This quiz is provided to test the technician’s comprehension of the article’s content, and does not necessarily serve as an endorsement of the content by NADL or NBC.
